

**Engineering Doors.
Opening Futures.**

The Market Leader in Special Purpose Door Systems

At Clark Door, we believe that great work deserves great rewards. That's why we've designed a benefits package that supports your well-being, growth, and happiness; both inside and outside of work.

Why Work With Us?

Career Development – Grow with us through structured training, development pathways, and clear career progression opportunities.

Generous Annual Leave – Enjoy 33 days of annual leave, inclusive of bank holidays, to rest and recharge.

Birthday Off – Celebrate your special day with an extra day off, no annual leave required.

Loyalty Reward Scheme – Earn an additional day of annual leave after 3 and 5 years of continuous service, recognising your dedication.

Life Assurance – Peace of mind with life cover at 4x your basic salary.

Holiday Flexibility – Access our holiday purchase scheme to tailor your leave to your lifestyle.

Financial Benefits – Company pension contributions and employee discounts to support your financial wellbeing.

Family-Friendly Policies – Enhanced maternity and paternity leave designed to support you through life's big moments.

Health & Wellbeing – Stay active with our cycle-to-work scheme and benefit from additional store discounts.

Sick Pay Support – Company-funded sick pay provides security when you need it most.

Be Kind Day - two working day's paid leave per year to undertake volunteer work with a registered charity.

PROJECT & DESIGN ENGINEER

Responsible To: Head of Design & Engineering

Location: Carlisle (CA6 4SD)

Salary: £35,000-£42,500 DOE/Qualifications

Overall Job Purpose

- To effectively manage technically the effective execution of specific contracts from order receipt to installation, with due recognition of commercial and delivery requirements.
- To effectively manage a portfolio of projects, liaising with customers and suppliers to ensure all projects are delivered to an exceptional standard.

Behaviours

As a company, we set high standards of performance and ethical behaviours. The following corporate behaviours underpin the working environment and assist us in delivering our vision:

- Working with integrity
- Being commercially astute
- Partnering people and change
- Driven to make a difference
- Accountable for actions
- Courageous leadership
- Environmentally responsible

Key Responsibilities

- Review contract documentation to highlight any potential anomalies between the client's official order documents e.g., the Architect's specification, site drawings and any site surveys in contrast to Clark Door Ltd's (CDL) proposal.
- Visit construction sites if required to survey door openings and surrounding structures.
- Study clients engineering plans/drawings and produce a General Arrangement drawing of the CDL product, with appropriate connection interface details relevant to the building structure.
- With support of an experienced engineering team, present findings and questions prior to submittal of CDL's product design intent to customer.
- Co-ordinate designs with the client's engineering team and/or client's architect on order to obtain drawing approval.
- Liaise with the CDL manufacturing team and installation department to ensure designs are suitable for manufacture and installation.
- Produce and issue detailed fabrication drawings to the CDL production team and specify welding details for structural components.
- Produce and issue detailed drawings of machined components for sub-contract manufacture (as applicable).
- Inspect finished doors and ensure that they are built to specification and fully comply with the contract, approved drawings and quality procedures.
- Liaise with and issue installation instructions to the CDL installation teams.
- Develop and apply personal skills that contribute to effective team-working and be an advocate of promoting quality and excellence in all dealings with customers.
- Be innovative and committed to continuous improvement; putting forward ideas and strategies that contribute to the company's success.
- Become a fully integrated member of the CDL team supporting our collective aims for company growth and development.

Occasional Tasks

- Support product development teams on specific tasks to ensure application and trial of latest technologies.
- Liaise with the Installations team on contracts with difficult fixing arrangements to ensure that the product is correctly installed.
- Produce sales proposal drawings when requested by the Sales Department.
- Update standard drawings when changes are required, update drawing registers and re-issue to all relevant departments.
- Liaise with the Head of Operations and Production Supervisor to ensure that any designs proposed can be manufactured within the commercial restraints of the contract.

Other Responsibilities

Health and Safety

The post holder is required to carry out the duties in accordance with the Company's Health and Safety policies and procedures.

Diversity

The post holder is required to have due regard to equal opportunities at all times, and to work in a fair and reasonable manner towards all people, ensuring service standards are maintained for all staff.

Quality

To support in striving to create a client service culture with total commitment to quality.

Other Duties

The duties and responsibilities in this role profile are not exhaustive. The post holder may be required to undertake other duties from time to time within the general scope of the post. Any such duties should not substantially change the general character of the post. Duties and responsibilities outside the general scope of this grade of post will be mutually agreed with the post holder.

How To Apply

At Clark Door, we are committed to attracting talented individuals who share our dedication to quality, innovation, and excellence. To ensure your application is processed efficiently, please follow the below:

Please include the following documents:

- Your CV – highlighting your skills, experience, and achievements.
- A cover letter – outlining your interest in the role and why you believe you are a strong fit for Clark Door.

Submit your application to: careers@clarkdoor.com

To help us direct your application correctly, you **must** include the job title you are applying for in the subject line of your email.

Example: "Application – [Job Title]"

Person Specification
